**Public warning in case of major incident**

General information about how the public will be warned in the event of a major incident at the facility:

Site siren.  
 Panelman notification at the Oil Refinery via Wiri oil terminal control room

**Public actions in case of major incident**

General information about how the public should act and any precautionary steps that people should take if a major incident occurs at the facility:

For a spill event the public should remain upwind of the Terminal.  
 Terminal emergency response is initially from the Refinery emergency responders.  
 Public should evacuate the immediate vicinity on the sounding of the Terminal siren (except test siren at 10:00 A.M. Monday mornings)

The public should follow the advice of Terminal staff and Emergency responders.
