Public warning in case of major incident

General information about how the public will be warned in the event of a major incident at the facility:

In the event of a major incident the immediate neighbours will be alerted by the facilities audible alarms. Terminal staff will contact adjacent neighbouring properties directly by telephone. Other members of the public who may be affected will be contacted directly by the emergency services.

Public actions in case of major incident

General information about how the public should act and any precautionary steps that people should take if a major incident occurs at the facility:

In the event of a major facility fire, members of the public are advised to evacuate away from the facility. Stay well clear and upwind of the facility, fire or smoke.

In the event of a major fuel spill, members of the public are advised to stop, evacuate, stay clear and upwind of the facility. Isolate any ignition sources and do not approach the facility.

The public are advised to follow the instructions of the emergency services.
