<input type="checkbox"/> Substances that react violently or liberate toxic gas on contact with water	

Public warning in case of major incident

General information about how the public will be warned in the event of a major incident at the facility:

Due to the remote location of the site, public interaction is limited other than State Highway 49. In the event of a major incident at the facility State Highway 49 will be closed, initially by mill staff, which will then be managed by emergency services upon their arrival. Emergency services would then provide necessary information and direction to the public (road users).

Public actions in case of major incident

General information about how the public should act and any precautionary steps that people should take if a major incident occurs at the facility:

Road closure of State Highway 49 and management thereof under the direction of emergency services must be adhered to.
